See how Cash Practice can help you  
grow Loyal Patients!

## The Wellness Score®

Loyal patients need feedback on how they're progressing with care. Patients just get it when you show them the need for your products and services with report cards.

## Auto-Debit System®

Loyal patients need convenience, ease, and a frictionless payment experience. Automatically collect credit card and ACH payments for one-time and recurring payments.

## Care Plan Calculator®

Loyal patients need a game plan. Offering care plans with affordable payment options gives them the peace of mind to know their commitments.

## Drip-Education® System

Loyal patients need to hear from you frequently. Consistently educate, market and communicate with your patients using automated email marketing campaigns.

*"I am dedicated to the concept of offering payment plans to patients to get them committed to care while making access to treatment affordable. Cash Practice has created the ideal programs that assist doctors with the implementation of such a thing, such as the Care Plan Calculator and even the Auto-Debit System. I've appreciated the opportunity to consult on compliance-related issues, and admire this company's commitment to excellence in these sometimes touchy regulatory areas. Because I've looked at these programs from high to low, I proudly recommend these options to my clients, customers, and seminar attendees."*
